

K9 Chain Spray | Colorless chain spray

Property

- greater corrosion protection
- stable lubricating film reduces wear
- o-ring tested
- temperature stable and water resistant
- extremely effective adhesion
- no chain clogging
- excellent creep capability
- additional valve with spray tube

Application area

- ideally suitable for chains on motorcycles or drive chains of other power units

Application

- Shake well before use. Spray the cleaned chain sparingly and evenly on the inside. Wait at least 25 minutes or, even better, overnight for optimum effectiveness. An improved grip is achieved.

Note

- Container is pressurised. Do not expose to sunlight and temperatures over 50°C. Do not force open or burn, even after use.
- Do not spray on flames or burning objects. Keep away from ignition sources. Do not smoke. Ensure adequate ventilation to avoid combustible vapour/air mixtures.
- Keep away from children. Ensure can is empty before disposal.
- Technical data subject to change without notice. Please observe the vehicle or machine manufacturer's directions. Please refer to the safety data sheet for further information.

Available packaging

500 mL can	Case 12 x 500 mL cans
